

PULLEY EXTRA PLUS

Large pulley for those who need grat hauling efficency, durability and light weight.

DESCRIPTION

Durable and lightweight single pulley for industrial use and hauling systems.

Sealed ball bearing andlarge diameter of the sheave provide great efficiency 94 %.

Side plate holes enable cleaning of ball bearing surrounding.

For use with static and dynamic textile ropes.

Designed and and optimized for use with Prusik friction knot or any clamps.

Additional strong attachment point for more complex pulley systems.

STANDARDS

C € 1019 EN 12278

MATERIALS

FEATURES

2×3 kN

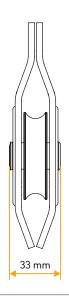

number

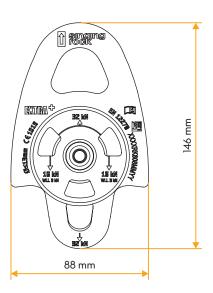

TECHNICAL DATA

- 78 % light alloy21 % steel
- 1% plastic

MAINTENANCE

Lifetime of this product is not strictly limited by the manufacturer. Depending on the condition of the product and its history it may be necessary to retire it immediately (e.g. visible signs of damage). Lifetime of this product can be influenced by various factors such as: frequent or improper use; usage environment (humidity, freezing, ice); wear; corrosion; serious stress with relative deformation; exposure to heat sources; improper storage; etc.
