

CARABINERS / CONNECTORS

FROG CABLE

ALUMINUM ALLOY | FOR METAL CABLES | AUTOMATIC CLOSURE

With an innovating approach, that characterizes KONG, comes out Frog, a revolutionary directional connector, provided with an automatic clamping that takes place touching the anchor point. Produced after a hard design in collaboration with Politecnico of Milan, Frog is a totally new connector, both in the appearance and in the mechanism.

Frog makes obsolete the concept of a carabiner thought as a "hook".

The insertion is extraordinary quick and safe, even in "far" anchor points, not easy to be reached with standard connectors.

It automatically clamps coming into contact with anchor point.

Special for anchoring on metal cables.

High quality product completely developed and produced in Italy.

Tested piece by piece.

Patented.

Usage activities

- ROOF AND INCLINED PLANES
 - METAL STRUCTURES
 - ROPE ACCESS
 - SAILBOATS
 - TACTICAL
- K9
